

Smart City platform and mobile application

Smart City can be easy
not only smart...
if we do it together

interticket

The history of the company founded in 1995 is a series of **innovative solutions**. Its IT group equally works on the permission system suitable for the new millennium, the **blockchain technology and smart city developments**.

InterTicket provides the **market-leader ticketing system of Hungary**, which is also one of the greatest worldwide.

interticket
smartcity solutions

InterTicket is also a **co-founder of Blockchain Competence Center** to create the foundation of enterprise blockchain solutions in Hungary.

With a sub-brand - **SmartCity Solutions** - InterTicket delivers **smart city applications** for Hungarian and international municipalities.
